Over the past five years, the retail loan book has outpaced the corporate loan book mainly due to tactical move to rundown on wholesale book given the tough economic conditions and strong underlying drivers in retail space. As pet the Bank, the growth in retail advances has been primarily due to two factors. (1) extensive network of branches across the length and breadth of the country which allows the bank to reach out to different customer segments, and (2) emphasis on innovation across multiple channels, which offers customers choice, convenience and a superior experience.
