* Price as on 29.10.2021.

as these are investment picks, stop loss must be based on one's own risk appetite. If and when a stock breaches given support level, investor may review their investments in the stock based on the then prevailing market conditions whether to hold or exit one's investment.

^ When a stock reaches mentioned target levels, investors taking in to consideration their risk profile can realize profit or maintain trailing stop loss and can look for higher levels in the stock, based on the then prevailing market conditions.
